SPECIAL USE AUTHORIZATION APPLICATIONS

MILO WILTBANK

Dr. Rudy reported that the application requested ten times more Pentothal Sodium than required and stated that the amount of telazol requested was in gram weights but should be in ml amounts since it is a liquid. The Board tabled the application pending more information.

LISA L. VAN VLEET

The Board reviewed this application because Ms. Van Vleet is the only non law-enforcement individual with a special use authorization. The Board has requested a letter be sent to Ms. Van Vleet informing her that next year she will need to obtain a law enforcement officer's co-signature and a letter that specifically states law enforcement takes responsibility for drugs possessed by Ms. Van Vleet.

A CLOSER LOOK AT STATE PRESCRIPTION MONITORING PROGRAMS

Cynthia Benning reported that the Pharmacy Examining Board has approved moving forward in initiating a prescription drug monitoring program in Wisconsin and plans to seek legislative support.

MOTION: David Donarski moved, seconded by Roma Rowlands to look at the prescription drug monitoring program to determine whether it could be used as one way to evaluate diversion of controlled substances and to place this issue on the Board's 2001 work agenda. Motion carried unanimously.

2001 MEETING DATES

2001 meeting dates are as follows: February 6, 2001, April 3, 2001, June 6, 2001, August 1, 2001, October 3, 2001, and December 4, 2001

NATIONAL ASSOCIATION OF STATE CONTROLLED SUBSTANCES AUTHORITIES MEETING

Cynthia Benning reported on the NASCSA meeting. DEA is looking at the electronic transfer of controlled substances prescriptions and DEA form 222 online. They will be looking at digital certifications to ensure electronic signatures are legitimate. Buprenorphine is being considered for use in place of Methadone in opiate dependency but since it is not yet approved for this use, physicians who are authorized to prescribe it for such purposes will have a suffix on the DEA number. DEA is reluctant to schedule pseudoephedrine but are looking at ways to deter sales since it is used in the manufacture of methamphetamine. DEA is also attempting to limit sales of Phenylpropenolamine. There is one remaining pharmaceutical company that sells this drug in bulk quantities. There was also discussion about GBL and GHB as well as the prescription drug monitoring program.

ADJOURNMENT

MOTION: David Donarski moved, seconded by Yvonne Bellay to adjourn the meeting. Motion carried unanimously.
